Thirteenth ANNUAL

Kansas State University Conference on

**APPLIED
STATISTICS
IN AGRICULTURE**

Sponsored by:

Department of Statistics
Kansas State University
Manhattan, Kansas 66506

April 29-May 1, 2001

Preface

This proceedings contains papers presented in the thirteenth annual Kansas State University Conference on Applied Statistics in Agriculture, held in Manhattan, Kansas, April 29-May 1, 2001. The purpose of the conference is to provide a forum for discussion on the application of statistics to problems in agricultural sciences. The papers presented at the conference and included in the proceedings are intended to provide information to both the statistician and agricultural researcher on current issues of agricultural and general statistical interest.

The keynote speaker was Peter Westfall.

Each contributed paper was refereed before being accepted for publication in this proceedings. Papers were accepted for publication based on their interest, relevance, innovation and application to the agricultural sciences and statistics

George A. Milliken, Ph.D.
Proceedings Editor

The Kansas State University Conference on Applied Statistics in Agriculture is successful because of the continued involvement of our presenters and participants. In addition, our conference depends on the efforts and support of a number of people and organizations. Special recognition and thanks are extended to the following.
