APPLIED STATISTICS IN AGRICULTURE

Proceedings of the 1994 Kansas State University Conference on Applied Statistics in Agriculture

Sponsored by:
Department of Statistics
Kansas State University
Manhattan, Kansas 66506

April 24-26, 1994

PREFACE

This proceedings contains papers presented at the sixth annual Kansas State University Conference on Applied Statistics in Agriculture, held in Manhattan, Kansas, April 24 through 26, 1994. The purpose of the conference is to provide a forum for discussion on the application of statistics to problems in agricultural sciences. The papers presented at the conference and included in the proceedings are intended to provide information to both the statistician and agricultural researcher on current issues of agricultural and general statistical interest.

The keynote speaker was Ingram Olkin, Ph.D.

Each contributed paper was refereed before being accepted for publication in this proceedings. Papers were accepted for publication based on their interest, relevance, innovation, and application to the agricultural sciences and statistics.
