APPLIED STATISTICS IN AGRICULTURE

Proceedings of the 1992 Kansas State University
Conference on Applied Statistics in Agriculture

Sponsored by:
Department of Statistics
Kansas State University
Manhattan, Kansas 66506

April 26-28, 1992

Preface

This proceedings contains papers presented at the fourth annual Kansas State University Conference on Applied Statistics in Agriculture, held in Manhattan, Kansas, April 26 through 28, 1992. The purpose of the conference is to provide a forum for discussion on the application of statistics to problems in agricultural sciences. The papers presented at the conference and included in this proceedings are intended to provide information to both the statistician and agricultural researcher on current issues of agricultural and general statistical interest.

The keynote speaker was J. Stuart Hunter, Ph.D.

Each contributed paper was refereed before being accepted for publication in this proceedings. Papers were accepted for publication based on their interest, relevance, innovation, and application to the agricultural sciences and statistics.

The Department of Statistics is very grateful for the financial support given for the conference by the American Statistical Association, U.S. Department of Agriculture — Agricultural Research Service, The Upjohn Company, Lilly Research Laboratories and Trilogy Consulting Corporation. Without their support, the conference would not have been as successful.

Special acknowledgement and appreciation is extended to Jane Cox, Julie Albrecht, Janet Milliken, and Rebecca Schwenke for their efforts in helping to organize the conference and prepare this proceedings.

George A. Milliken, Ph.D.
James R. Schwenke, Ph.D.
Editors

Table of Contents

Beyond Linearity and Independence J. Stuart Hunter	1
Co-Effect Analysis of Variance: A New Method for Unbalanced Data André Plante	15
Studying Herbicide Resistance Using Treatment Area Dynamics Model Agam N. Sinha, Dale L. Shaner	27
Prevalence Rate Differences Based on Herdmate Comparisons Jerome M. Sacks, Randall C. Cutlip, Amy L. Weaver and Howard D. Lehmkuhl	41
Utilization of the Line-Intercept Method to Estimate the Coverage, Density, and Average Length of Row Skips in Cotton and Other Row Crops Jeffrey L. Willers, Sreenivasa R. Yatham, Michael R. Williams and Dennis C. Akins	48
Statistical Analysis of Genotype-by-Environment Interaction Using the AMMI Model and Stability Estimates Bahman Shafii and William J. Price	60
A Markov Chain Model to Assess Resistance of Cattle to Horn Flies Edward Gbur and C. Dayton Steelman	73
Confidence Intervals for Soil Properties Based on Differing Statistical Assumptions Fred J. Young, R. David Hammer and Jon M. Maatta	87
Designed Experiments in the Presence of Spatial Correlation David B. Marx	104
A Simple Alternative to the Standard Statistical Model for the Analysis of Field Experiments with Latin Square Designs C. Philip Cox and Jeff B. Meeker	125
Planning a Safety Study of an Agricultural Product: Effects of Land Application of Phosphogypsum on Random Flux Ramon C. Littell and Sudeep Kundu	140
Estimating Variance Functions for Weighted Linear Regression Michael S. Williams, Hans T. Schreuder, Timothy G. Gregoire and William A. Bechtold	153

The Analysis of Tree Ring Chronologies Using a Mixed Linear Model O. Brian Allen, Daniel A.J. Ryan and David L. McLaughlin	161
Options for Analyzing Unbalanced Split-Plot Experiments: A Case Study Marta D. Remmenga and Dallas E. Johnson	170
Analysis of Mixed Models Without Mixed Models Software George A. Milliken	180
Analyzing Split-Plot and Repeated-Measures Designs Using Mixed Models Russ Wolfinger, Nancy Miles-McDermott and Jenny Kendall	190
When Should Random Effects be Included in Estimable Functions and When They Should Not? David C. Blouin	201
An Example of Path Analysis Applied to Classification Variables Richard E. Lund and Albert L. Scharen	213
Regression Modeling Using Principal Components Shahar Boneh and Gonzalo R Mendieta	222
Soil Properties and Landtypes — Classification and Identification with Discrimination Analysis R. David Hammer and John W. Philpot	233
Simplified Data Analysis for Generally Balanced but Messy Experimental Designs Richard E. Lund	243
A Comparison of Double Sampling Regression Estimators Dennis L. Clason and G. Morris Southward	257
The Need for the Analysis of Treatment x Period Interaction in Animal Experiments L.A. Goonewardene and L.Z. Florence	265
List of Conference Attendees	280

List of Conference Attendees

Adnan, Arisman, Kansas State University
 Al-Gabir, Khalid, Kansas State University
 Al-Shiha, Abdullah, Kansas State University
 Al-Zaid, Munther, Kansas State University
 Allen, Fred, University of Tennessee
 Allen, O. Brian, University of Guelph
 Ballou, Lynda, Kansas State University
 Barbec, Mark, Iowa State University
 Blouin, David, Louisiana State University
 Boldman, Keith, University of Tennessee
 Boucher, Joseph F., The Upjohn Company
