## RESEARCH IN PROGRESS

A survey of English-language researchers who have published studies about the GDR is being conducted. The information gathered will be published in a monograph, scheduled for autumn 1984 publication. It will include the names of scholars working in the field of GDR studies and their areas of specialization so that others engaged in GDR research will know where to contact colleagues with whom one might exchange information and ideas. Scholars in the United

States, Canada, Australia, New Zealand, the United Kingdom, Israel, India, and Ireland will be included in the survey.

If you have published contributions to the growing body of GDR research and have not yet received a questionnaire from Dr. Anita M. Mallinckrodt, please contact her at once (2937 Macomb St. NW, Washington, DC 20008) so that she can send you the survey material. ■

The Institute will sponsor research projects in various fields including politics, foreign policy, economics, history since 1945, and German culture in its social and political context. In 1984, experts will be invited from American and German universities and research institutions to serve as visiting scholars at the Institute. A library on post-1945 Germany, and a program of lectures and conferences focusing primarily on the FRG, but including the GDR as well, will be initiated.
