Types of Proposals and Sessions

Paper Proposals: Papers are reports of completed research and will be published in the conference proceedings. There are three categories for papers: (a) empirical research, (b) model or theory development, and (c) theorizing from the literature. The time allotted for each session is **50 minutes**. Audience participation, as a principle of adult education, is stressed.

Research Roundtable Proposals: Research roundtables provide an opportunity to informally discuss research in progress and research issues with a group of participants. A summary will be published in the conference proceedings. The time allotted for each session is **50 minutes**. Several roundtable discussions will take place concurrently in the same room with each presenter assigned to a different table.

Symposium Proposals: A symposium presents diverse or conflicting perspectives on a compelling topic or issue that is or should be of concern to adult education practitioners. A symposium should NOT be merely a presentation of a related set of papers. Symposia will be published in the conference proceedings. The time allotted for each session is **90 minutes**. Audience participation is encouraged.
