A publication of the Association for  
International Agricultural and Extension  
Education

***Journal of International Agricultural and Extension Education***

ISSN 1077-0755

DOI Prefix 10.5191

aiaee.org

The *Journal of International Agricultural and Extension Education (JIAEE)* is the official refereed publication of the Association for International Agricultural and Extension Education (AIAEE). The purpose of the *JIAEE* is to enhance the research and knowledge base of agricultural and extension education from an international perspective. Acceptance rates for the past five volumes are: Volume 20 = 21%. Volume 21 = 13%. Volume 22 = 18%. Volume 23 = 12%. Volume 24 = 18%. Volume 25 = 9%. Volume 26 = 26%. Volume 27 = 17%.

Articles intended for publication should focus on international agricultural education and/or international extension education. Articles should relate to current or emerging issues, cite appropriate literature, and develop implications for international agricultural and extension education. **Manuscripts, or portions of manuscripts, must not have been published or be under consideration for publication by another journal.**

For publication in the *JIAEE*, manuscripts must pass the ***JIAEE's double blind, referee process***, where peer reviewers evaluate manuscript content and ensure readability. Reviewers are selected from the AIAEE membership. In the double blind, referee process, all references to authors are removed before the manuscript is sent to reviewers. Articles may be submitted for peer review a total of ***three times*** before they are no longer acceptable for publication in the *JIAEE*. Failure to meet the submission formatting guidelines will result in an automatic first rejection.

Two different types of articles are solicited for the *JIAEE*: Feature Articles and Research Notes.

**Feature Article**

A Feature Article should focus on philosophy, current or emerging issues, and the methodology and practical application of specific research and appropriate technologies, which have implications for developed and developing countries. Conceptual/Theoretical and Methodological manuscripts are also encouraged as submission for feature articles. If applicable, a feature article should report the findings from a fully investigated study. Feature articles are **no longer than 20 double-spaced pages, excluding references.**

**Research Note**

A Research Note is a concise but complete description of a limited investigation that will not be included in a later manuscript. It serves one of the following purposes: (1) presents initial proof-of-concept results on new ideas or program evaluations, timely issues, or innovative approaches; (2) reports replications or extensions of previously published research that does not merit another full-length manuscript yet provides results that contribute to a greater understanding of the phenomena under study. Research Notes are **no longer than 10 double-spaced pages, excluding references.**

**From the Executive Editor**

*“Celebrate endings – for they precede new beginnings.”*

Jonathan Lockwood Huie

The *JIAEE* editorial team is excited to share a new beginning with each and every one of you as we transition officially to our new platform: New Prairie Press with this latest Issue 28(5), the last we will be publishing this year. While it is short due to our submission and review process being delayed during our transition period, there are some innovative and interesting articles to read. I encourage each of you to take a look.

The editorial team would like to thank Kansas State University for supporting the platform and allowing all journals using its publishing services to eliminate page fees. Which means, you can now publish with the *JIAEE* cost free! We are hopeful this opens up even more opportunities for our members around the world to take advantage of publishing within the pages of the journal. If you know of someone who might be interested, please pass along the journal information. In addition, if you (or someone you know) would be willing to serve as reviewers for the *JIAEE*, please reach out and let us know as the more reviewers we have, the faster we can turn around reviews and publish your valuable work.

Personally, I would like to thank Dr. Todd Brashears and Dr. Kristina Hains for their persistent faith in moving the *JIAEE* to the new platform over the past two years. From working through contracts with the AIAEE leadership team and New Prairie Press staff to transitioning journal articles and troubleshooting reviewer profiles the two have gone above and beyond and their efforts should be applauded.

Last but not least, I am thrilled to announce our new *JIAEE* Managing Editor:

Dr. Mary Rodriguez  
The Ohio State University

We will be transitioning our editorial team in early January with Dr. Brashears taking over as Executive Editor and Dr. Rodriguez joining in this role. It has truly been an honor and a privilege to serve on the editorial team this past four years, and I look forward to contributing as the Past Editor in the years to come. Thank you for all your submissions. Your amazing research efforts have inspired me in more ways than you can image.

Once again, we thank you all for reading, submitting your work and reviewing for the *JIAEE*. Please feel free to contact us at any time if you have questions.

Happy New Year and Cheers to New Beginnings!

Sincerely,

Alexa J. Lamm, PhD

Executive Editor, *Journal of International Agricultural and Extension Education*
