Message from the President of ATE-K

Greetings from ATE-K,

Change can be exciting! One thing I love about being an educator is the opportunity to continually reinvent my work, my classes, and myself through reflection at the close of a semester. The insightful and varied articles in this issue of *The Advocate* can provide us with food for thought in our quest to improve our practice of preparing teachers.

Change can also challenge us! Our 2015 Spring ATE-K/ KACTE conference was titled *Preparing the Next Generation of Teachers: Showcasing Research and Best Practices that Enhance High Quality Teacher Education*. The conference was held at Kansas State University March 27, 2015 and allowed us to learn from our colleagues throughout the state about new and innovative practices that help us not only navigate, but embrace, the transitions, challenges, and change we find in teacher preparation.

Yes, change can be challenging, but challenge is a key element to new learning and when new learning occurs, we need to share it! As you explore and develop new ideas or programs, please consider sharing them with others by submitting a manuscript for a future issue of *The Advocate*. It is my hope that your membership in ATE-K provides you with a strong foundation for your continued growth as a teacher educator and I invite you to continue your professional learning by attending the Association of Teacher Educator's summer conference held July 31st – August 4, 2015 in Minneapolis, MN. For more information visit the ATE website: <http://www.ate1.org/pubs/Home.cfm> .

I would also like you to share with me in thanking Dr. Pam Green who has served our organization so well during the last two years as our ATE-K president. Her strong leadership and dedication to ATE-K has helped our organization continue to be a voice for high quality teacher preparation throughout the state of Kansas.

Yours in education,

Laurie J. Curtis, Ph.D.
