Service Learning Reflections

- Preflection
- Post-training
- Service Learning
- Empathy & Civic Responsibility
“Preflection” (Paper #1)

• Prior to taking this course, what did you think of Guatemala and/or Guatemalans?
• Describe your positive and negative experiences with individuals from another culture and how these experiences (or lack of them) might influence your experience in Guatemala.
• Describe how you feel about the upcoming service learning week in Guatemala. What are you excited about? What concerns do you have?
• List at least two questions you have. Attempt to formulate “deep”/thought-provoking questions.
Post-Training Reflection (Paper #2)

• Evaluate the training/preparation you received (reading materials, videos, classroom discussion, etc.)? How might the preparation component be improved?
• Describe how you felt learning about Guatemala and domestic violence.
• How has what you’ve learned impacted how you expect to approach your week of service in Guatemala?
Service Learning Reflection (Paper #3)

• Compare what you have learned in the classroom via lectures, discussions, videos, and presentations with what and how you’ve learned as a result of your service week in Guatemala.
  o Refer to specific, detailed examples (quotes, concepts, theories, etc.) from texts, lectures, and film/video and how it applies (or does not apply) to your experience in Guatemala.
  o Include a minimum of two photos that represent your learning and add descriptive text.

• Since returning from your service week in Guatemala, describe any changes in your thoughts, actions, and/or mood.
  o For example, has it impacted how you react to stressors such as daily hassles or physical, emotional, or social challenges?

• Include a section that describes how you are personally situated within hierarchies of race, class, gender, etc.
  o Compare/contrast your position in the U.S. and world with the Guatemalans we worked with as it relates to race, class, gender, etc.
  o Briefly, articulate the role of coursework in helping you to perform the public health work conducted in Guatemala. Reflect on ideas in “7 Reasons Why Your Two Week Trip To Haiti Doesn’t Matter”.
  o Demonstrate an understanding of the interconnectedness and interdependence of the global community. These interconnections should be examined at several levels: individual, group, nation-state, or international, and may include local-global connections.
To Hell with Good Intentions

Ivan Illich

An address by Monsignor Ivan Illich to the Conference on InterAmerican Student Projects (CLASP) in Cuernavaca, Mexico, on April 20, 1968. In his usual biting and sometimes sarcastic style, Illich goes to the heart of the deep dangers of paternalism inherent in any voluntary service activity, but especially in any international service "mission." Parts of the speech are outdated and must be viewed in the historical context of 1968 when it was delivered, but the entire speech is retained for the full impact of his point and at Ivan Illich's request. Reprinted with Ivan Illich's permission.

Calling Bull on “Service Trips”

Reflection on
Empathy & Civic Responsibility
(Paper #4)

• Evaluate the impact of the service experience and course content on your ability to empathize with the Guatemalans you encountered, especially those individuals at Nuevos Horizontes, hospitals, and families (where we delivered beds).

• Include a minimum of 2 photos that illustrate empathy and civic responsibility in action along with descriptive text.

• What conclusions have you arrived at regarding the importance of service for individuals (human or non-human) and organizations?

• What’s next? Will this course and experience impact you beyond this semester? Explain.
Adventure Education

• Telling the story
Lessons Learned

• **Timing:**
  - Plan early – at least one year in advance

• **Student Ambassadors:** (“formers” are your best recruiters)
  - Interest meeting upon return – during semester
  - Use of social media while abroad and upon return

• **Connection to Community abroad**
  - Engage – early and often
  - Concept of “co-educators”

• **Campus Buy-In**
  - Who needs to experience this type of program?
  - Who do you take to coffee, lunch, dinner?
Cognitive & Cultural Theories

• Justice-oriented service learning model
  o Concepts of difference, privilege, “the other”
  o “The challenge is to create relationships that neither ignore the realities of social inequality in our society nor attempt to artificially homogenize all people in the service-learning experience” (Mitchell, 2008, pp. 58—59).
Intercultural Maturity

- AAC&U’s LEAP initiative (Liberal Education and America’s Promise)

  - Four essential learning outcomes that guide institutions to meet challenges of 21st century (2007): intercultural maturity is woven throughout

- King & Baxter Magolda (2005):

  - “The developmental capacity that undergirds the ways learners come to make meaning, that is, the way they approach, understand, and act on their concerns. Thus, demonstrating one’s intercultural skills requires several types of expertise, including complex understanding of cultural differences (cognitive dimension), capacity to accept and not feel threatened by cultural differences (intrapersonal dimension), and capacity to function interdependently with diverse others (interpersonal dimension)” (p. 574)

  - Cognitive maturity is the ability to “consciously shift perspectives and behaviors into an alternative cultural ‘worldview’” and “use multiple cultural frames” (p. 587).
Successes & Mistakes

• The “Band-Aid” model
• Connecting with locals as “co-educators”
• Importance of building in time for reflection
• Concept of privilege
• Shifting students from “passive learners” to “active learners”
Practical Suggestions for Improvement

• Survey students (require)
• Student reflection
• Faculty member: Reflection, debrief department/chair/dean, complete brief report (require)
• Chair: Attend interest meeting (where recent “formers” show photos, videos, and discuss) and ask questions
Examples: Monmouth University

- Strategic plan & union contract
  - Financial support – university now covers travel costs of faculty member and co-leader (with 10 or more students) and provides $130 stipend per student.
- “Adventure Education in Costa Rica”
- CETL workshops
- Syllabi development and review
Examples: University of San Diego

- Connection to Diversity & Inclusion Office, Center for Community Service Awareness and Action
- Jamaica Summer Program
- Pilot program in London (as part of London Summer program)
