Sponsored by:
Department of Statistics
Kansas State University
Manhattan, Kansas 66506

April 23-25, 1995

PREFACE

This proceedings contains papers presented at the seventh annual Kansas State University Conference on Applied Statistics in Agriculture, held in Manhattan, Kansas, April 23 through 25, 1995. The purpose of the conference is to provide a forum for discussion on the application of statistics to problems in agricultural sciences. The papers presented at the conference and included in the proceedings are intended to provide information to both the statistician and agricultural researcher on current issues of agricultural and general statistical interest.

The keynote speaker was Roger Mead.

Each contributed paper was refereed before being accepted for publication in this proceedings. Papers were accepted for publication based on their interest, relevance, innovation, and application to the agricultural sciences and statistics.
