## Errata: "What Is Technical Writing Style Today?" from the Oct.-Nov. 1978 issue

### Abstract

Correction Wales and Ashman, "What Is Technical Writing Style Today?" Oct.-Nov. 1978 issue, pp. 13-22.

**Correction** Wales and Ashman, "What Is Technical Writing Style Today?" Oct. Nov., 1978, issue, pp. 13-22.

The editors received these changes after the Quarterly had gone to press. Ewa Bardell, a research assistant of Dr. John Kirkman, developed the Brown-Smith questionnaire. The research was part of their effort at the Institute of Science and Technology, University of Wales (Cardiff). Wales' and Ashman's own report, published this year, focuses "more attention on the significance of order of presentation as it influences a person's choice of Brown or Smith."
